

30. POLICIES

The school has a range of policies, agreed and monitored by the Trust & Local Governing Body, that provide guidelines for the approach to, and implementation of education and the structure that supports this prime purpose.

The policies cover all aspects of the school's operation, e.g. teaching and learning, communications, finance, governance, health and safety, human resources, etc.

Copies of the policies can be viewed on the school's website in the *About The School* section at:

<http://www.sirhenryfloyd.bucks.sch.uk/about-us/policies/>

Following the school's conversion to a Multi Academy Trust in July 2016, all existing policies were transferred to the new trust, and thereby the school. A number of policies may still have references to the local authority and/or Bucks County Council, and in these instances this should be read as the School / Local Governing Body / Trust / Department for Education as appropriate. The policies themselves will be reworded in line the school's policy review timetable as noted below.

Policies are reviewed and monitored by the Trust, the Local Governing Body and its committees as appropriate on a regular basis to ensure they meet requirements however, the review period can be dependent on national legislation, Department for Education guidelines or school priorities requiring shorter or longer period. Currently the review periods for individual policies range between 1-4 years.

If you have any queries relating to the school's policies please contact Jackie Willoughby, Communication Services Manager.
